

Finance & Accounting “Hot Dates” for March

March 7-8 **Fair Value Measurement Workshop**

AICPA Boardroom, New York, NY

The Fair Value Measurements Workshop will discuss the conceptual issues in using fair value measurements and provide examples of valuation measurements. The workshop will show members in business and industry as well as their outside auditing firms the information necessary to confront the challenges in making and attesting to fair value measurements.

March 13-16 **CFO Rising**

Orlando, FL

Gather with some of the industry's most powerful and transformative CFOs to gain insights, strategies, and concrete solutions to the core challenges you face.

March 23-24 **Public Company Accounting Oversight Board Advisory Group Meeting**

Washington, D.C.

March 28 **Early Bird Registration Deadline for IMA Conference & Exposition**

Orlando, FL

IMA's Annual Conference and Exposition is where accountants and financial professionals will gather to make important connections and expand their knowledge. Leave your desktop behind and build true professional connections during three days of continuing education and networking in Orlando, Florida on June 4 - June 8, 2011. Register by Monday, March 28th, to take advantage of Early Bird Registration Reduced Rates!

March 29 **IFRS Taxonomy Annual Convention**

London, UK

The convention will feature influential Keynote speakers from the international financial reporting, XBRL and regulatory communities who will examine the implementation of IFRS with XBRL.

March 28-29 **AICPA Employee Benefit Plan Audit Workshop**

AICPA Boardroom, New York, NY

Audits of employee benefit plans are unique and require specialized knowledge to perform the audit. The AICPA Employee Benefit Plan Audit Workshop focuses on the key procedures you need to be successful!

March 31 – April 1 **Strengthening Your Enterprise's Risk Oversight for Strategic Benefit**

AICPA Boardroom, New York, NY

This workshop helps board and audit committee members understand expectations for greater risk oversight and develop effective audit committee practices for evaluating and monitoring techniques used to manage entity risks so that stakeholder value is protected and enhanced. Senior executives will find this information helpful as well due to the interaction between the board, audit committee and senior executives.
